MEMORANDUM FOR THE DIRECTOR OF CENTRAL INTELLIGENCE

SUBJECT: Utilization of Non-Extended Active Duty (Non-EAD)  
Reserve Personnel in Intelligence Production  
Activities

During your review of the FY 1976 General Defense Intelligence Program you asked if better use could be made of reserve personnel in intelligence production. We are taking a close look at the DoD reserve production capability and are working toward its integration into the overall defense intelligence production management scheme. We have concluded a survey internally and are now soliciting the experiences of the Services and Commands. The results of our examination of this issue will be provided to you upon completion.
